CAREER OBJECTIVE

Aspiring Full Stack Developer skilled in React.js, Node.js, Express.js, and MongoDB, with a strong foundation in DSA, OOP, and RESTful APIs. Passionate about building scalable, user-centric web applications.

Professional Experience

Neuro-Sharp Software Pvt. Ltd. **July 2024 – Aug 2024**

Full Stack Developer Intern

- Developed responsive web interfaces using **HTML, CSS, JavaScript**, and **React.js**.
- Built reusable **UI components** and improved understanding of **component-based architecture**.
- Applied best practices in **responsive design**, **web performance**, **accessibility**, and **cross-browser compatibility**.

Projects

Employee Management System | *React.js, Node.js, Express.js, JavaScript, HTML, CSS* **2025**

- Built a full-stack **Employee Management System** with **CRUD** functionality for efficient employee record management.
- Developed a responsive frontend using **React.js** and integrated **RESTful APIs** built with **Node.js** and **Express.js**.
- Implemented **form validation** and optimized data handling to improve user experience and application reliability.

Cold Email Generator | *React.js, Node.js, MongoDB, OpenAI API, SendGrid API, Material UI* **2025**

- Developed an AI-powered cold email generator using **React.js**, **Node.js**, and the **OpenAI API** for personalized email generation.
- Integrated **MongoDB** and **SendGrid API** for email management and automated email delivery.
- Implemented **Context API**, **Local Storage**, and a responsive **Material UI** interface for seamless session management and user experience.

Technical Skills

Programming Languages: JavaScript, TypeScript, Java, Python, C/C++, SQL
Frontend: React.js, HTML5, CSS3, Tailwind CSS, Material UI
Backend: Node.js, Express.js, Fast Api, RESTful APIs
Databases: MongoDB, MySQL
Developer Tools: Git, GitHub, Postman
Cloud & Platforms: Google Cloud Platform (GCP)

Education

Jaipur Engineering College and Research Center Foundation **2022 – 2026**

Bachelor of Technology in Information Technology *Jaipur, Rajasthan*

- **Relevant Coursework:** Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks, Software Engineering

Achievements

- Solved **200+ Data Structures and Algorithms** problems across coding platforms, strengthening problem-solving and coding skills.
- Completed the **Walmart USA Advanced Software Engineering Virtual Experience (Forage)**, implementing a custom **Heap (C++)**, designing **UML** diagrams, and creating an **ER** database model.
- Organized **Area-level** and **District-level Toastmasters** contests, demonstrating leadership, teamwork, and event management skills.
